

THE  
*QUICKEST*  
*REPETITIVE*  
CLAMPS

*Easy to use*

*High Grade Aluminium*

*Will NOT Disengage with Vibration*

*Quickest Repetitive Clamp*

*Unique 3 way adjustment*

*Clamp using 1 hand*

*Light Weight*

*Non Marking Caps*

*"I am very happy with them  
they are my favorites  
Jeremy - Lindfield AUS*

*"I really think these  
are the best  
thing since  
sliced bread"  
Arthur -  
Mooroobark  
AUS*

**CAPS**  
Soft Caps for Protection

**X4**

- 55mm x 55mm
- 150kg Clamping Force
- Vibration Resistant
- NOT PLASTIC - Formulated Glass Resin

**X5**

- 155mm x 55mm
- 150kg Clamping Force
- Vibration Resistant
- Lock-Release with 1 Hand
- NOT PLASTIC - Formulated Glass Resin

**X6**

- 55mm x 100mm
- 250kg Clamping Force
- Vibration Resistant
- 100mm Deep Throat
- Lock-Release with 1 Hand
- Premium Grade Aluminium

**X7**

- 310mm x 100mm
- 250kg Clamping Force
- Vibration Resistant
- Super Quick Sliding Mechanism
- Lock-Release with 1 Hand
- Premium Grade Aluminium

*Vibration Resistant*

*150 KGs of Pressure*

*Deep Throat Alloys*

*Clamp up to 310mm*

**FEATURE**

- *Super Quick Design*
- *Will Never Disengage*
- *Heat resistant for Welding*
- *Premium Grade Aluminium*
- *High Strength & Light Weight*

Quick release clamps have been around for a long time, long enough to flood the market of bad copies. Lidwig from Sydney Australia has come up with the next generation of clamps that have raised the bar and sent woodworkers buzzing. The X clamp range is the quickest repetitive clamp available. In seconds adjust it to the required thickness and pressure, and simply squeeze the handles to clamp over and over using one hand. Even under pressure it's a simple one finger release.
